THIS is the studio where Coldplay, Barry Manilow, Take That, the Spice Girls, Echo & The Bunnymen and Diana Ross recorded and has now been converted to become the city's latest hot spot. A breakfast bar in the morning, an events venue by day and a haven for the over 30's at night. Parr Street Directors Gary Millar & Steve Macfarlane are behind the scheme. Don't worry Gary confirms **STUDIO2** can still be used as a live recording venue, or for small concerts.

The venue is managed by hospitality star Cameron Acott, bringing years of experience from Alma De Cuba in Seel Street, Negresco Deco in Woolton and The Railway in Tithebarn Street. Ian Cook, TV's Come Dine With Me Liverpool champion, is in charge of catering and uses organic and locally-sourced products in his breakfasts and snacks.

**STUDIO2** can be booked for your next meeting.

**ANY QUESTIONS** : Please ask for Cameron or Ian
